

Trans and Gender-Diverse Primary Care

Tuesday, September 19th, 9:00 am to 3:00 pm

North Hamilton Community Health Centre

348 Hughson Street North, Hamilton, ON - lower level

* Please bring a brown bag lunch

Jordan Zaitzow - social worker and current Trans Health Connection Coordinator at Rainbow Health Ontario, experienced educator and workshop facilitator.

Dr. Nanky Rai – Family medicine physician from St. Michael's Hospital, University of Toronto, has been active in decolonizing migrant and health justice movements, on the territories of the Anishinaabek, Mississaugas of the New Credit and Haudenosaunee peoples.

Open to MDs, NPs, specialists, and other prescribers.

Please join us for an engaging and interactive session focused on:

- Providing holistic, community-based primary care and services to gender-diverse clients
- Assessment, monitoring, and follow-up for hormone therapy
- New Protocols: shifting the lens on trans care
- Practical tools for offering trans inclusive and trans specific primary care

This program has been approved for up to 5.0 MainPro M1 CME credits.

TO REGISTER: Email Melanie Butler - MButler@dahac.ca
