

Queering Mental Health Supports in Canada

Egale Canada is undertaking a national research study to determine how to address critical gaps in 2SLGBTQI mental health care during and beyond the pandemic.

How has the **COVID-19 pandemic** impacted your mental health and well-being? How can we improve mental health services and supports for **2SLGBTQI people** in Canada?

Share your voice through our 25-minute **national survey** or by attending a 90-minute **focus group**.

We will be doing focus groups with both 2SLGBTQI individuals and with mental health service providers

We are looking for participants who:

- ☒ are 2SLGBTQI **OR** are mental health service providers
- ☒ live in Canada
- ☒ are 16 years of age or older

Visit egale.ca/QMH for more information.

Survey participants will be eligible to win one of ten **\$200** gift cards, focus group participants will receive **\$50** in honoraria.

This study has been approved by the Community Research Ethics Office (#241). Please contact the lead researcher, Kim Seida, for more details on this study at kseida@egale.ca.
